Paul, I was hoping to meet with you and Jonna once the business had settled. As I mentioned in passing there are personal and professional aspects to our relationship. And, my hope was that once the professional issues were settled by the elders that we could reconcile personally. To that end, my offer to meet personally with you and Jonna remains open either in the short or long term future as you determine. My only request in meeting would be that your tone not be the same as the lengthy letter you sent as I do not believe that would be profitable for any personal reconciliation between us.
